CALL FOR ENTRIES

The Hand Magazine is a new magazine for emerging artists working in photography, digital, and print media. Our goal is to provide an outlet for artists to publish their work and share their images and identities with a wider audience.

The HAND Magazine is always seeking entries for our next issue!
There is NO THEME and the issue will be printed IN COLOR. Black and white/monochrome images are still accepted and will be reproduced accordingly.

The due dates for entries are: February 28th (for the April issue), May 31st (for the July issue),
August 30th (for the October issue) and Nov. 30th (for the January issue)

The HAND Magazine is a magazine for reproduction-based art:
Printmaking and photography only please! We especially love photography that uses hand-applied techniques, but digital and hybrid techniques are also welcome!
The cost for submission is $15 (more outside the US) and includes a copy of the issue, which you will receive whether or not your images are selected for publication.

Artists may submit up to 5 images per entry fee.

OR

We are also looking for articles that describe a contemporary body of printed art. Please submit the article and up to 5 images. If the article is selected for publication, we may ask for more images to accompany the article.

For the required submission file specifications, payment information and submission forms, visit the website
